

CAPPA & GRAHAM
MEETING, EVENT & DESTINATION PARTNERS

THINK GREEN

As an internationally and locally certified green business, Cappa & Graham, Inc. is setting the hospitality industry standard as an environmentally responsible enterprise. With this in mind, we are offering an alternative to traditional convention shuttle services. This approach incorporates innovative steps with our shuttle services to promote attendee health and wellness, the environment, and fiscal responsibility.

To promote health and wellness, we provide walking distance, number of steps and estimated walking time between shuttle pick-up and drop-off points on hotel lobby cards for all convention attendees.

To support our clients' environmental endeavors, we offer alternative fuel vehicles, third-party accredited carbon offsets, and 100% recycled content paper lobby cards as an alternative to traditional and non-recyclable foam core signage. Additionally, we maintain a no idling policy, ensure our motorcoach partners perform environmentally responsible maintenance, and recycle used oil, batteries, antifreeze and tires.

To support our clients' mandate to be fiscally responsible, we recommend that all clients requiring shuttle systems consider reducing their coach numbers by one-third when looking for transportation in 2009.

"Please tell Cappa & Graham how much I appreciate their willingness to work with us on these budget cuts and their GREAT attitude! Their whatever-it-takes and we're-in-this-together philosophy is so refreshing during these stressful times. They are one of the few companies that is our partner and not a vendor."
– RSA Conference

We look forward to creating a shuttle system with you that helps your organization improve health, protect the environment and save money!
